SUMMARY

IT Support Analyst with 3+ years of experience in technology, including L1/L2 technical support, multi-site retail infrastructure and Help Desk supervision for the banking sector. Experienced in SLA-driven incident management, hardware and POS maintenance, and monitoring with Grafana and AWS. Key differentiator: a software development background (P-TECH/IBM), building Python and API automations and integrations that reduce operational rework.

EXPERIENCE

Help Desk Supervisor — Globals Americana, Brazil | Aug 2025 – Apr 2026

- Led a team of 5 analysts providing L1/L2 support to banking clients, ensuring SLA compliance and service continuity.
- Structured ticket triage and severity-based prioritization, speeding up the resolution of critical incidents.
- Monitored financial transactions in real time using Grafana dashboards and AWS log analysis, flagging suspicious behavior and triggering fraud-prevention actions.

IT Infrastructure Assistant — Goodbom Sumaré, Brazil | Aug 2024 – Aug 2025

- Delivered L1/L2 and infrastructure support to users across 3 retail sites, keeping stores and office running.
- Supported the retail ERP and point-of-sale (POS) terminals, ensuring continuous integration between registers, fiscal devices (SAT) and the management system.
- Performed preventive and corrective maintenance on computers, thermal printers, Wi-Fi scales, SAT, IoT devices and POS, reducing store downtime.
- Managed user accounts, permissions and access, and installed and configured new equipment.
- Led the IT asset refresh, replacing and upgrading devices.

Software Development Intern — IBM Hortolândia, Brazil | Jun 2022 – Dec 2023

- Built web applications with Python, Flask, AngularJS and TypeScript in an agile squad (Scrum/Kanban).
- Created and integrated REST APIs with GitHub version control and CI/CD pipelines, speeding up feature delivery.

PROJECTS

- **MCP Server for Microsoft Teams (studiodeco):** integrated AI agents with Teams via Microsoft Graph API, automating messaging, meeting and team management, and invitation handling.
- **FrogShare (frogshare.onrender.com):** Windows and macOS desktop app for screen streaming with per-app audio, WebRTC and auto-updates with integrity verification (SHA-512).
- **LaneGG (lanegg.com.br):** production web platform with authentication, webhook-based payments and Riot API and Google Calendar integrations (React, Supabase).

SKILLS

- **Support & Service Desk:** L1/L2 technical support, Help Desk, incident management, SLA, ticket triage and prioritization, user and access administration.
- **Infrastructure & Hardware:** equipment setup and configuration, preventive and corrective maintenance, IT asset management, retail ERP, POS, thermal printers, IoT.
- **Monitoring & Cloud:** Grafana, log analysis, AWS, system monitoring, fraud prevention.
- **Development & Automation:** Python, Flask, TypeScript, REST APIs, Microsoft Graph API, MCP, Git/GitHub, CI/CD, Scrum, Kanban.
- **Soft skills:** technical team leadership, prioritization under pressure, user and client support.

EDUCATION

Associate Degree in Systems Analysis and Development — Fatec Americana (P-TECH/IBM) | 2022 – 2023

Technical Degree in Systems Analysis and Development — Etec Polivalente de Americana | 2019 – 2021

CERTIFICATIONS

Agile Explorer — Open P-TECH (IBM) | 2021
